

# ABOUT US

Since 2012, **ASTL has been the benchmark for logistics and 4PL service in Italy and Europe.** We offer customized solutions for your supply chain, combining flexibility, innovation and environmental awareness. The main focus is on sustainable transport of raw materials and industry products.

## What is 4PL service?

A 4PL (Fourth Party Logistics) is a strategic partner handling customer's entire supply chain, taking responsibility for all logistics activities, allowing you to focus on your business.

ASTL is a leading company focused on operational excellence, sustainability and continuous innovation. **Our commitment to environmental protection is tangible:** we have integrated a 1000 kW photovoltaic system into our new headquarter and we promote the use of low-emission vehicles.

## ASTL offers a wide range of logistics services:

Full 4PL service	Logistics service	Conventional transport
Storage of goods and raw materials	Intermodal transport	Exceptional transport

Via della Conca 3, 26100 Cremona (CR)

## WHY SHOULD YOU CHOOSE ASTL?

### LOWER COSTS

By optimizing your supply chain, you will reduce your overall costs

### MORE EFFICIENCY

By managing activities efficiently, you will optimize processes

### MORE VISIBILITY

By providing visibility to your supply chain, you will make better decisions

### LESS RESPONSIBILITY

Set yourself free from the day-to-day management of your supply chain

**Our company** is committed to optimizing processes, guaranteeing fast turnaround times and reliable services. We cooperate with **qualified carriers** to ensure the highest quality of road transport. Thanks to our flexibility and responsive team, **we create new intermodal routes in Europe in only 45 days** and we activate services on existing routes in only 10 days. **We constantly measure our performance through KPIs to ensure continuous improvement.**
